

KIOTI LK & DK SERIES

KIOTI offers a full line of tough and versatile LK Series (19 hp – 30 hp) and DK Series (35 hp – 65 hp) compact tractors engineered for one solid purpose: to perform with ease and reliability year after year.

Mow, rake, till, move dirt, haul heavy loads... KIOTI is ready for any job that demands a durable compact tractor. LK and DK Series models come equipped with 4WD, a proven Daedong diesel engine, dependable transmission, sturdy PTO, and accurate 3-point hitch system, plus a long list of standard features you'll have to see to believe.

Pure Animal

affordable

A Long List of Standard Features

Designed for Comfort

Tilt-wheel steering and an adjustable seat lets you settle in for a comfortable ride. Flat deck, wide step-through area and grab handles allow you to step aboard and dismount with ease.

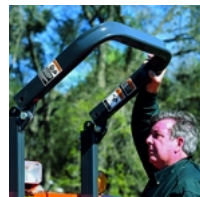

With Safety in Mind

Equipped with wet disk brakes, ROPS, seatbelt, headlights, safety lights and safety start switch for your protection. The standard rear work light allows you to see the attachment and drawbar during nighttime work.

Added Convenience

Foldable ROPS let you get close when working around trees or entering enclosed areas. Adjustable 3-point hitch enables fast and simple attachment hook-up and accurate operation. Removable engine panels let you check service points with ease.

Rugged Performance

4WD and differential lock give you power when you need it most. Foot and hand accelerators provide greater freedom and control. Sturdy front, rear or mid-mount PTOs deliver serious power to a wide range of attachments.

One Versatile Work Partner

Full Line of Accessories

KIOTI carries an entire line of user-friendly, high performing implements including front-end loaders, backhoes, mowers, and tillers. What's more, KIOTI tractors are engineered to accommodate virtually any attachment on the market.

KL Series Loaders

KIOTI offers six KL Series loaders equipped with a quick-attach bracket and built-in parking stand for quick and easy connection. KL Series loaders utilize the tractor's hydraulic system, feature single-lever control with float, and newer models come with a bucket level indicator.

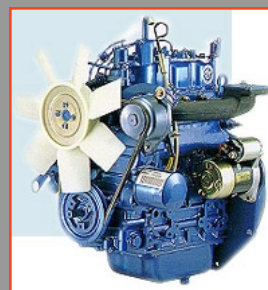

KR Series Grooming Mowers

There are four KR Series grooming mowers to make fast work of finish mowing. KR Series mowers have a sturdy seven-gauge deck material for long life, heat-treated alloy steel blades for efficient cutting and long-lasting Kevlar belts.

Attractive Options

Dress up your tractor with a number of options such as agricultural tires (standard), turf tires, or industrial tires, front weights, and sun shades. DK 50 and DK 65 come with an optional cab for the comfort of a climate-controlled atmosphere. Cab models feature radio/cassette, air conditioning, windshield wiper/washer, tip-up roof and door props for excellent ventilation.

Proven Daedong Engine

Powered by a liquid-cooled, fuel efficient, 3-cylinder or 4-cylinder Daedong diesel engine.

Synchronized Shuttle Transmission

Shuttle-shift is handily located on the steering column with 8 forward and 8 reverse speeds for smooth, reliable and precise operation with no loss of power.

Intelligent Control Layout

Easy to read, full-featured instrument panel continually monitors vital operations while smart design offers conveniently positioned controls for simple, user-friendly operation.

Superior Turning Radius

Equipped with power steering and a tight turning radius for effortless maneuvering when jobs require accurate handling and control.

COMPARATIVE GUIDE

With KIOTI, expect heavy-duty performance, power and smooth operation in one truly affordable package. Take a minute to compare KIOTI. You'll find owning a quality compact tractor is a lot easier than you think.
